Harry Potter

Review on harry potter

I think harry potter is a really good series. Books and movies. They are a long series but very enjoyable. I could rewatch them over and over and still find something new about them. My favorite one is the half blood prince. It has a lot of action which makes it very interesting. Id give the whole series a 9/10. A deduction of 1 point just because they are lengthy and take awhile to finish.

Sephora and ulta

Sephora and ulta make 2 different types of makeup. One is targeted toward kids, then the other is targeted for adults. Sephora is honestly targeting the adults, and then Ulta is targeted towards kids. The prices are really high, Sephora's prices are \$45.00 and under depending on what type of makeup u get. Then Ulta's prices are 4t\$60.00 and under. The only reason why it's so expensive for Ulta makeup is because they have a lot of makeup palettes, and they want to get the kids money, Sephora is a little expensive because of the fact they are getting money from adults and so that way they can make sales. A lot of stuff ulta has that sephora doesn't have such as fenty beauty by Rihanna. Then for sephora there is the Selena gomez new collection. The sales price for ulta are \$8.6 billion compared to \$6.2 Billion and then sephora's sales prices are \$5.01 billion U.S. dollars.

Country vs pop music

Country and pop music are two ever common and popular music genres. In the 2000's pop music became very popular among the younger generations. Some

people find pop and country music relatable. Everyone has their own opinions on music. There are reasons why some don't like country and reasons why some don't like pop or they may like both.

Some people like country because they find the lyrics more honest to how they feel. Some people like pop because the music can wake them up because the tempo is faster than country. Pop music

happens to have
been more popular to
the newer generation
but country is still a
popular genre of
music.

"How do you put someone down easy?"

Dear Valued Student,

It's never easy to let someone down but the best way is to be upfront about it and do it as soon as possible. If you drag it out and let the person think that everything's okay, you'll start to feel suffocated in the relationship and when you finally tell the person, it'll hurt even more. You should always let someone down in person, if you can't, over the phone is good too. (Pro tip: Don't do it over
