## Arizona

Arizona is a type of tea that many people, including myself, like to drink. It's a cold sugary drink that comes in a giant can. The drink can be bought at pretty much any convenience store, corner store, supermarket, etc. The can has cool artwork that is enjoyable to look at. The art on the can correlates to the flavor of that specific can. All cans of Arizona everywhere where I have got it from have sold it for \$1 because that's what it says right on the can.

Some People might say that Arizona has a funky taste to it, or they might say that Arizona hurts their stomach. Those are reasonable reasons to not drink the beverage. Some others might not like the artwork and might like brisk better or they would rather Lipton for their distinct taste. Regardless of whether you enjoy Arizona or not It's all opinion based. Whatever you like can and will be different. Arizona is good in my opinion but that's just my opinion.

# McDonald's

McDonald was founded in 1940 and now it's the most known thing in the United States and they are the world's largest fast food chain. More people eat McDonald than the entire population of the UK. The McDonald's arch is more recognizable than the Holy Cross.

Welcome to McDonald's Franchising

McDonald's is the world's leading global foodservice retailer with **over 38,000 locations** in over **100 countries**.

**Approximately 93% Of McDonald's restaurants worldwide are owned and operated by independent local business owners.**

# Wendys

## wendys

Wendys is the best burger place hands down in my opinion. Wendys is a fast food place that serves burgers, nuggets, fries and more. My favorite baconators with no tomato, onion or pickles. The burgers on pretzel buns and frosty's are good as well. I recommend everyone in the whole entire world to try wendys at least once in their life.

They are not very healthy compared to other fast food places. How healthy it is depends on what you get and the portions you have. Some things they have are absolutely scrumptious and others are really gross. I LOVE WENDYS. I give it a 100/10.

*“How do you put someone down easy?”*

---

Dear Valued Student,

It's never easy to let someone down but the best way is to be upfront about it and do it as soon as possible. If you drag it out and let the person think that everything's okay, you'll start to feel suffocated in the relationship and when you finally tell the person, it'll hurt even more. You should always let someone down in person, if you can't, over the phone is good too. (Pro tip: Don't do it over
